3M ADHESIVE TAPE: Forms a solid bond to any type of interior door for a strong hold.

ADJUSTABLE STRAP: Set the perfect width of door opening to fit your needs.

LOCK/UNLOCK LATCH: Easy one touch provides adults with quick and convenient access to room.

Full overview: amazon.in

- DOOR BUDDY** → The simple Door Latch that will keep your dog (if slightly larger than cat) out of the room with the cat food and litter box while still allowing your cat to have easy access.
- SHAPLY ALTERNATIVE** → Door Buddy may be simple, but it works! Why struggle with pet gates that are bulky and cumbersome to use? Why not a permanent hole in your door to install an interior cat door? Why force your cat to jump into and use a top entry litter box that may make her feel trapped? By Door Buddy, Pet and Cat, her paw will open your owners' DOOR to reveal.
- INSTALLS IN SECONDS AND IS EASY TO USE** → Just peel and stick to the door and door frame using the strong 3M adhesive (EXTRA) included. The simple lock and unlock levers allow you to use them whenever you wish the door going up and down and convenient access to the room.
- ADJUSTABLE AND CUSTOMIZABLE** → Use the adjuster on the strap to make the width of the door opening wider or narrower to work with the exact size of your cat and dog. You can even slide the position where you stick the plastic piece to make it further customizable. Or install on the back of the door to make it stronger, especially for larger and more persistent dogs. Compatible with all types of doors from bi-fold doors to pocket doors and even double doors.
- HOW DOES IT WORK** → Door Buddy allows the door to any interior room to open just wide enough so cats can easily enter or exit, but at the same time keep it narrow enough so dogs (if slightly larger than cat) cannot get in. Sometimes keeping the piece in a household with both cats and dogs can be frustrating and a challenge. Door Buddy provides an easier and less cumbersome way to give cats a space of their own.
